# ABOUT US

## MARKUS BERBERICH

Owner & Founder of the Insel-Brauerei,  
 Dipl.-Braumeister, Beer Sommelier

## MARKUS & THE INSEL-BRAUEREI

I discovered my passion for beer when I was a teenager, a brewery tour fascinated me so much that I studied brewing to become a brewer.

## THE IDEA OF A UNIQUE BREWERY

Only the best for the unique taste value, we rebuilt machines according to historical models and created our recipes in endless experiments - 6 x World Best Beer at the World Beer Awards are a great recognition for such a young brewery.

## RARE BEERS WITH BOTTLE CONDITIONING

I can say with a clear conscience that no one brews like us. That's the reason why I chose the term **SELTENE BIERE**. These are little-known, forgotten or self-created and interpreted beer styles. They are just as enjoyable as wine.

We are very happy to have created a small beer category of our own with all this. We are happy about the many Insel-Brauerei lovers all over Germany and about 20 countries around the world - whether in France, Korea, Japan or Australia.

## HOW WE BREW

### RARE BEERS

We brew only our own creations, inspired by little-known, forgotten, historical and international beer styles.

### INGREDIENTS: 27.000 COMBINATIONS!

Only the best raw materials go into our beers. We brew with around 30 hop varieties, 30 malt varieties and 30 yeast varieties - 30x30x30 equals 27,000 possible combinations.

### 3 FERMENTATIONS

Our rare beers ferment in shallow, open fermentation tanks. Only in this way can our yeasts develop their complex aroma and flavor potential without hydrostatic pressure.

### BOTTLE AGING - TRADITIONAL METHOD

We brew according to the traditional method with bottle aging. This means that the top-fermented beers are given a dosage similar to that of champagne and mature in the bottle for at least 10 days after bottling.

### NATURAL WRAPPING PAPER - ICON OF RARE BEERS

In order to guarantee the long-lasting freshness and quality of the rare beers in connection with bottle aging, we completely wrap our bottles in wet-strength natural wrapping paper.
